**Description**

Controller.sendCOVNotification(27171,analogValue,instance,presentValue,parseFloat(value));
from Node "KONGSBERG" on domian SWEPROD did not reach HUB on 220223:
function covNotificationReceived(epoch,processId,deviceId,objectType,objectInstance,propertyId,value)

After hard restart, on 220223 about 17:40, of the node "KONGSBERG" the message came through.
The node had also been unable to generate analog object from the browser menu on the same occasion.

The node is still not able to show device data in the browser.

Hello David.
Are you still having these issues?

**#2 - 08/29/2022 10:54 AM - Torbjorn Carlqvist Admin**

*- Status changed from New to Closed*

Hi David, I hope this was just a temporary glitch.
Let us know if you see this issue again. I will close the ticket.
