DTXr - Feature #6

Adding response to all JS scheduling functions

08/31/2022 04:51 PM - Torbjorn Carlqvist Admin

Status:	Closed		**Start date:**	08/31/2022
Priority:	Normal		**Due date:**	09/09/2022
Assignee:	Torbjorn Carlqvist Admin		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	3.0.14			
Reported Version:				

Description

Due to the user request Return remaining time of timer we will add response information to following functions.

```
startJob
resumeJob
pauseJob
startCronJob
cancelJob
```

The purpose with this is to get information from a running job. If it was canceld, when should it have bean fired next time etc.
The response will be in JSON

More information will follow when development start.
